

5G Communications

Welcome to the next phase of telecommunication standards. 5G is the latest in cellular technology, designed to increase the speed and responsiveness of wireless networks. 5G breadth reaches into IoT, massive machine-type communications, mission-critical applications, transportation, industrial automation, health, smart cities, and mobile broadband, for starters. There is no shortage of information when it comes to 5G developments within regulatory authorities, standards, research centers and the hundreds of companies all working on varied products and breakthroughs. The 5G communications newsletter will keep you informed on the latest products, technology, and research so you're ahead of the curve.

Coverage Areas/Topics

- Communications: Data/Telecom/Wireless/Networking
- Transportation
- Consumer Products & Electronics
- Medical Equipment

Markets/Industries Served

Aerospace; Automotive; Communications; Computers; Defense & Security; Consumer Products/Electronics; Medical Equipment; Transportation

Reach a Highly Engaged Audience

Our focused publications make it easy for you to support specific marketing initiatives and build awareness among a highly engaged audience of decision makers who use e-newsletters as a key resource when comparing and evaluating suppliers.
