

GlobalSpec's Acoustics & Audio Technology provides audio and sound engineers with news and updates about audio technologies, including the field of sound recording, sound reproduction, and noise abatement. The components, materials, and technologies used to generate, manipulate, and measure sound in mobile telecommunications and other devices, and the applications of these components are this publication's primary focus.

Markets/Industries Served:

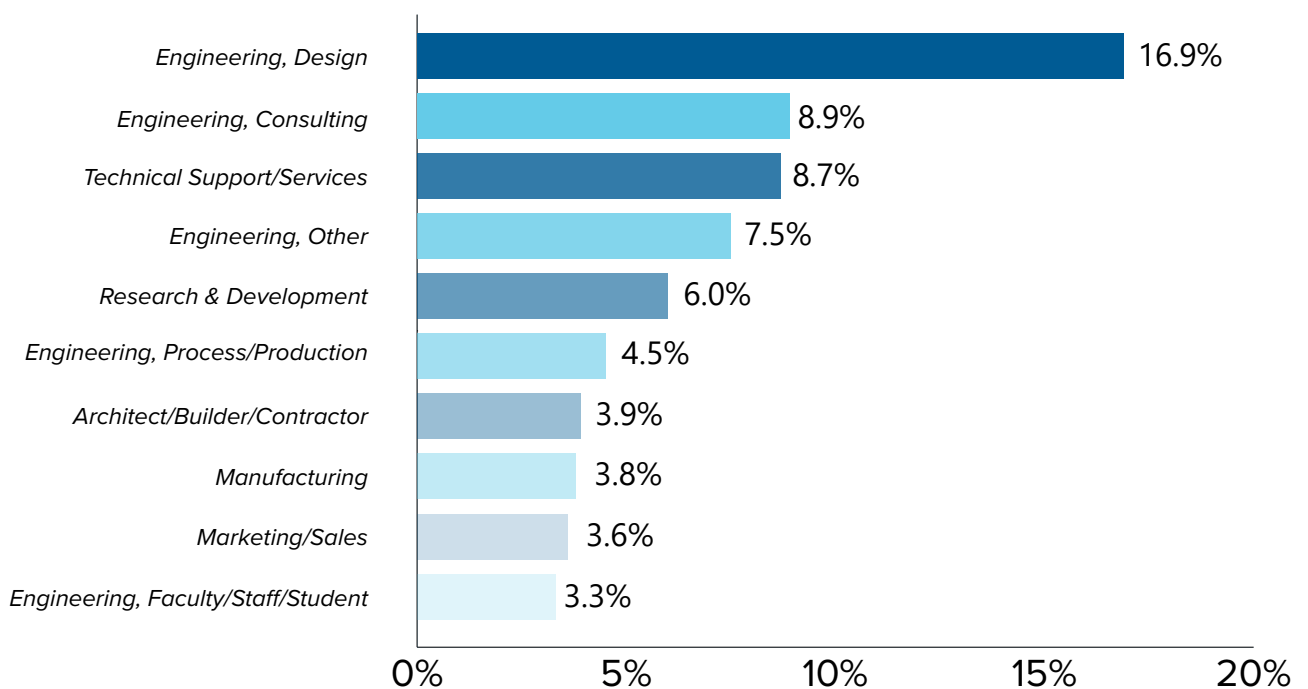

- Acoustic Materials
- Audio Connectors
- Audio Transformers
- Signal Measurement & Processing
- Speakers & Amplifiers
- Vibration Isolation and Control
