In the Mechanical Components newsletter, readers are immersed in the world of mechanical engineering and the latest advancements in components and systems. The newsletter covers innovations in gears, bearings, actuators, and other mechanical components, emphasizing their critical roles in various industries such as automotive, aerospace, and machinery manufacturing. Additionally, it explores emerging trends in lightweight materials, precision engineering, and sustainable designs, offering engineers a comprehensive resource.

### Markets/Industries Served:

- Actuators & Motion Control
- Bearing & Power Transmission
- Building & Construction
- CAD/CAE
- Fasteners & Fixings
- Industrial Hardware
- Pumps & Fluid Handling
- Springs & Wire Forms
- Tools & Tooling Systems

### Subscribers Include:

#### Top Industries

#### Top Job Functions

### GlobalSpec Newsletters: Reach a Highly Engaged Audience

Our focused publications make it easy for you to support specific marketing initiatives and build awareness among a highly engaged audience of decision makers who use newsletters as a key resource when comparing and evaluating suppliers.

**57%** of engineers listed vendor news, such as product and service updates, as their favorite aspect of newsletters.\*

**89%** of engineers subscribe to newsletters, with 55% subscribing to 3 or more.\*

**74%** of Manufacturing Marketers used email newsletters to distribute content in the last 12 months.\*\*
