The Shock, Vibration & Noise newsletter provides insights into the critical field of mitigating and managing mechanical disturbances in various systems and structures. The latest advancements in shock-absorbing materials, vibration-dampening technologies, and noise-reduction strategies emphasize their applications across automotive, aerospace, and construction industries. It also looks at emerging trends like predictive maintenance for noise and vibration, structural health monitoring, and active control solutions, among others.

### Markets/Industries Served:

- Absorbers & Barriers
- Machine Mounts
- Shock Absorbers
- Dampers
- Noise Control & Measurement
- Vibration & Acceleration Control Systems

### Subscribers Include:

#### Top Industries

#### Top Job Functions

## GlobalSpec Newsletters: Reach a Highly Engaged Audience

Our focused publications make it easy for you to support specific marketing initiatives and build awareness among a highly engaged audience of decision makers who use newsletters as a key resource when comparing and evaluating suppliers.

**57%** of engineers listed vendor news, such as product and service updates, as their favorite aspect of newsletters.\*
